

PIN06-200(S)

ink color Black

**Introduction:** uni Pin is the most outstanding name in ultra-fine marking pens.  
 We add the 06 type to the Pin line-up.  
 The Pin's sliver nib produces smooth ink flow for ease of writing.  
 It is good for drawing and design.  
 Pigment ink: The ink has superior water resistance, so once it dries, the ink will not smear, even if you spill water on the page. It also has light resistance and it will not fade under continuous exposure to light.
